Someone asked a wise man: "Why is a musician always with you? And he answered, "The instrument he's playing brings music to my words. For those who have trouble hearing them, the trouble melts into the melody of the words, which are sent to me by God. He is not just playing the instrument - he is the instrument for reaching out my words to people". - *Yogi Bhajan*

For years Guru Dass accompanied Yogi Bhajan as his personal musician, in the US, Europe and India. He often played during his classes, bringing the gift of his music to Yogiji's meditations. Since 2001 Guru Dass has been traveling, teaching and sharing his music all over the world. Now we have the opportunity of studying and chanting along with him in Bolder. Guru Dass is one of those teachers with the gift of the word, of speaking in a manner that frees the mind and opens the heart.
